Net

Rack Enclosures: Offers innovative server racks with soundproofing, heat dissipation, intelligent access controllers, and locking systems for secure IT environments. Enconnex: Global IT infrastructure manufacturer providing standard and custom server and network racks, micro data centers, PDUs, UPSs, and containment solutions, with manufacturing in Reno, NV, and worldwide distribution. Additional SuppliersEDP Distribution: Supplies server and communications enclosures, including custom cabinets, chimney racks, multi-compartment co-location enclosures, and soundproof cabinets suitable for edge computing.

Rackspace Technology, 247Rack, Racksquared, Sitoca Engineering, Iron Systems: Offer specialized server and network rack solutions, including colocation-ready enclosures, disaster recovery setups, and enterprise-grade data center racks.

Considerations for Selection

When choosing a network rack supplier, consider: Rack size and compatibility: Standard 19-inch width, height in U units, and depth based on equipment. Environmental requirements: Dust resistance, temperature, and humidity control for stable operation. Customization needs: Some manufacturers provide bespoke solutions for specific data center or telecom requirements.

Global supply and support: Ensure the manufacturer can deliver and support products in your region. These manufacturers provide a broad spectrum of network rack solutions suitable for data centers, IT rooms, and telecom infrastructure, ranging from standard enclosures to highly customized, secure, and climate-controlled racks.
