New Zealand EDX2880B Spectrometer

Overview

A bench-top XRF spectrometer for RoHS analysis is a compact, user-friendly device designed to detect hazardous substances in materials.

Article Content

JASCO New Zealand | Spectroscopy

JASCO New Zealand offers advanced spectroscopy and chromatography analysis solutions in various science fields such as environment, medicine, food, and

Bench-top XRF spectrometer AE-EDX-2800B

A bench-top XRF spectrometer for RoHS analysis is a compact, user-friendly device designed to detect hazardous substances in materials. It measures elements like

Interlab | Top Laboratory Supplier for Equipment

Everything you need for accurate results. Laboratory equipment and consumables for labs across New Zealand and Australia. Interlab supplies

Lab Supply imports & distributes high quality scientific equipment and ...

From routine quality control to complex material analysis, the IKA ROTAVISC range delivers dependable viscosity measurement backed by intuitive operation and robust German engineering.

AELAB Bench-top XRF spectrometer AE-EDX-2800B

© 2026 FD SOLUCIONES OPTICAL SYSTEMS - All rights reserved

The Bench-top XRF Spectrometer is a compact, high-precision analytical tool specifically engineered for RoHS compliance testing and multi-elemental analysis in solid, liquid, or plated materials.

Spectrometers | element14 New Zealand

Buy Spectrometers. element14 New Zealand offers fast quotes, same day dispatch, fast delivery, wide inventory, datasheets & technical support.

Spectrophotometer | DKSH New Zealand LabShop

Spectrophotometer SHERWOOD DILUTOR M806 CONTINUOUS FLOW SHEW80600009 Please add to cart & request for quote to see the price

Scienze – Scientific technology solutions

Scienze is a New Zealand based scientific supply company that provides measurement and automation solutions for various fields of research and industry. We work with leading global manufacturers to

Technical Data of Skyray Instruments

SKYRAY EDX2800 is a high-end configuration XRF spectrometer specially designed for hazardous elements detection, such as RoHS compliance screening, toy safety, consumer goods safety, heavy

Locations & Distributors

Please contact Ocean Optics for assistance. Prospective distributors seeking to represent Ocean Optics in the Caribbean region should contact us, providing a brief company profile and explanation of

Spectrometer, Flame Emission & Atomic Absorption

The Spectrometer for teaching analytical chemistry, introduces students to instrumentation similar to that used in real-world applications. This unit

Q4 TASMAN | Compact Spark-OES System

Process and quality under control The Bruker Q4 TASMAN Series 2 is an OES for metals analysis – includes new elements and alloy types, with application packages for the ten most common metal

accuratems

Accurate Mass Scientific (AMS) is a proudly Australian, privately owned company dedicated to serving the expanding mass spectrometry market across Australia,

Elemental Analysis Solutions & Analytical Instruments | SPECTRO

© 2026 FD SOLUCIONES OPTICAL SYSTEMS - All rights reserved

SPECTRO is a global leading supplier of advanced analytical instruments like ICP, Arc Spark OES, and XRF spectrometers for precise elemental analysis of materials.

Spectro – ICP-OES Spectrometers – All Products | DKSH Technology

The SPECTRO ARCOS ICP-OES analyzer represents a new pinnacle of productivity and performance for inductively coupled plasma optical emission spectrometers One instrument instead of two: Only

Inductively Coupled Plasma Optical Emission Spectrometer (ICP-OES ...

Inductively Coupled Plasma Optical Emission Spectrometer (ICP-OES) Perkin Elmer Avio 550 Max Cycl./Concentric System N0810005 N0810005 Please add to cart & request for quote to see the price

Palmtop Raman Spectrometer | Jasco New Zealand

PR-1w Palmtop Raman Spectrometer Brochure The PR-1w Palmtop Raman is an amazing new technology that includes a wide-range, high-resolution spectrograph into a tiny form factor.

XCAMS: The compact 14C accelerator mass spectrometer ...

A detailed description is given of the 0.5MV tandem accelerator mass spectrometry (AMS) system for 10Be, 14C, 26Al, installed in early 2010 at GNS
