Key Takeaways

Power distribution boxes in New Zealand are available from suppliers like NHP, Airon NZ, Scott Electrical, and B&R Enclosures, all offering AS/NZS 61439-compliant solutions for residential, commercial, and industrial use. Suppliers and OptionsNHP New Zealand offers a wide range of distribution switchboards, from compact pole covers (1–8 poles) to surface or flush-mounted loadcentres (8–36 poles) and rugged metal panelboards (8–24 poles). Their products are design-verified to AS/NZS 61439, ensuring reliability and performance across domestic, commercial, industrial, and mining applications.

Airon N

Z provides various flush-mounted and surface-mounted distribution boards, including 4, 6, 8, 12, 18, and 24-way options. They also sell 2, 4, 6, and 8-pole enclosures in high-impact resistant materials suitable for indoor installations. Scott Electrical supplies a broad range of distribution boards across Auckland and nationwide, catering to both standard residential and commercial requirements.

B&

R Enclosures specializes in modular and rugged enclosures for power distribution, including IP55 and IP66-rated systems.

Their Monarch I

P series offers stainless steel, aluminum, and steel options, suitable for outdoor or industrial environments. They also provide modular thermoplastic enclosures (Polynova PC series) in multiple sizes with accessories for flexible installation.

Key Considerations

Compliance: Ensure the distribution box meets AS/NZS 61439 standards. Type: Choose between flush-mounted, surface-mounted, pole enclosures, or modular switchboards depending on installation needs. Material & IP Rating: For outdoor or industrial use, consider IP55 or IP66-rated enclosures in steel, aluminum, or thermoplastic.

Capacity: Select the number of poles or ways (e.g., 4, 6, 12, 24) based on the electrical load and circuit requirements. These suppliers provide both ready-to-install boards and customizable solutions for various applications, ensuring compliance with New Zealand electrical standards.
