New Zealand cable tray support column manufacturer

Overview

We offer a range of versatile and cost effective cable support systems, as well as an in-house custom solution design service.

Key Takeaways

Leading manufacturers of cable tray support columns in New Zealand include FDG, MSS, USL Multistrut, Steel & Tube, and Atkore, offering locally manufactured, compliant, and customizable solutions. Key Manufacturers and Suppliers1.

FD

G (FDG New Zealand) FDG provides a full range of cable trays, ladders, baskets, and support products suitable for power, data, and audio-visual cabling. Their products are available in pre-galvanized and hot-dip galvanized finishes, with options for custom painting. FDG's modular systems are adjustable and compatible with FDG Modframe™, FDG STRUT™, and strut bracketry, allowing easy installation and future maintenance.

2. Mechanical Support Systems (MSS) MSS designs, manufactures, and installs complete cable containment systems across New Zealand. They offer local manufacturing of trays, ladders, baskets, and framing using trusted New Zealand steel suppliers.

MS

S provides seismic-compliant designs, FIREPROVED systems tested to AS/NZS 3013: 2005, and NZS 4219 compliant bracing. Their services include accurate takeoffs, BIM modeling, and professional installation by trained crews. 3.

USL Multistrut US

L Multistrut specializes in electrical and mechanical support systems, including cable trays, pipework, and seismic bracing. They manufacture in East Tamaki, Auckland, and provide flexible design options to meet New Zealand standards. Their products include brackets, channels, and fixings, with pre-fixed joiners to reduce installation time and labor costs.

4. Steel & Tube Steel & Tube offers the EzyTray range of cable trays and ladders, suitable for all cable containment needs. They provide full take-offs from plans to quotations and access to BIM-enabled 2D and 3D CAD details, supporting efficient project planning and installation.

5. Atkore Atkore supplies a variety of cable management systems, including perforated Rolled Edge Cable Trays, UT3 and UT5 multi-purpose trays, AF50 cable baskets, and NEMA steel and aluminum ladders. Their products are designed for easy installation, support, and strain relief, with options for vertical and horizontal risers.

Considerations for Selection

Material and Finish: Choose between pre-galvanized, hot-dip galvanized, or powder-coated finishes depending on environmental conditions. Compliance: Ensure products meet NZS 4219 seismic standards and AS/NZS 3013 fire protection requirements. Customization: Many manufacturers offer adjustable, modular, and project-specific solutions.

Local Manufacturing: Selecting locally manufactured products can reduce lead times, improve quality control, and support New Zealand jobs. Installation Support: Some suppliers provide professional installation services, BIM modeling, and engineering data for complex projects. These manufacturers provide comprehensive solutions for commercial, industrial, and infrastructure projects, ensuring reliable, compliant, and flexible cable tray support systems in New Zealand.
