Nordic Optical Cable Splicing Company

Overview

Cable Our fitters work daily with branching and splicing of fiber in pull troughs, splice cabinets, masts, etc. We also perform all types of end terminatio.

Key Takeaways

Key Nordic providers of optical cable splicing solutions include NorthLab Photonics, Norsk Fiberoptikk, Tech Optics, and Foss Fiber Optics.

North

Lab Photonics (Stockholm, Sweden)NorthLab Photonics specializes in advanced fiber optic solutions, offering custom fiber optic assemblies, splicing services, and training in fiber preparation and processing. They provide certified repair and support for 3SAE and FITEL equipment, ensuring high precision and reliability for industrial and research applications. Their facility in Stockholm also features cutting-edge tools like the 3SAE Lens Forming Station for high-volume manufacturing and specialized fiber end processing.

Norsk Fiberoptikk (Norway)Norsk Fiberoptikk focuses on fiber splicing, branching, and end termination for pull-throughs, splice cabinets, and masts. They exclusively use core-centering splicing machines to meet modern network requirements, ensuring high-quality joints and terminations for businesses with demanding bandwidth needs. Their services cover both mechanical and advanced splicing technologies.

Tech Optics (UK, serving Nordic region)Tech Optics manufactures and distributes fiber optic equipment and assemblies, offering custom cable assemblies, splicing equipment, and repair services. With over 35 years of experience, they provide ISO 9001: 2015-certified solutions and training for harsh environments, supporting both industrial and telecom applications. Foss Fiber Optics (Norway and Slovakia)Foss Fiber Optics delivers preterminated fiber optics, splice machines, and related components.

They collaborate with major brands like Fujikura for splice machines and Corning for cables. Local production in Norway and Slovakia allows for fast delivery and flexible solutions, catering to both Nordic and international markets.

Summary

These Nordic manufacturers and service providers offer a combination of equipment, splicing services, training, and preterminated solutions. Companies like NorthLab Photonics and Norsk Fiberoptikk focus on high-precision splicing and network installation, while Tech Optics and Foss Fiber Optics provide both manufacturing and distribution of splicing equipment and assemblies. Together, they represent the leading options for optical cable splicing in the Nordic region.

Article Content

Top 12 Fiber Optic Cable Manufacturing Investors in the Nordics

In the Nordic region, fiber optic cable manufacturing investors represent a mix of corporate entities and venture capital firms. Predominantly based in major cities like Stockholm and Helsinki,

Nordic Fiber

We distribute building materials, fiber technology, and electronic hardware while coordinating ground works, cable trenching, and network installations across the Nordics.

Fiber Optic Services & Support | NorthLab Photonics

Explore expert fiber splicing, custom assemblies, and certified support for 3SAE & FITEL tools. NorthLab delivers precision solutions for every challenge.

Cutting-Edge Fiber Optic Solutions | NorthLab Photonics

Cutting-edge fusion splicing and processing solutions designed for seamless fiber connections, delivering superior strength, low-loss splices, and enhanced

Foss Fiber Optics

© 2026 FD SOLUCIONES OPTICAL SYSTEMS - All rights reserved

Foss Fiber was established in 1987 and since then has become one of the largest manufacturers of fiber optic solutions in Norway. The company has a wide range

Services

Our fitters work daily with branching and splicing of fiber in pull troughs, splice cabinets, masts, etc. We also perform all types of end termination of fiber cable.

Diginext Scandinavia

We operate across Sweden, Norway, and Finland, with plans to expand into Denmark, offering full-service support for hyperscale data centers, colocation facilities, and mission-critical environments.

Build-out | Eastern Light

Eastern Light builds, owns and operates long-haul fiber express infrastructure between major data centers and communication hubs in the Nordic countries.

Top 12 Wire And Cable Companies in Norway (2026) | ensun

Key takeaway T&G specializes in delivering custom connection solutions, including a wide range of connectors and electric cables, making them a key player in the industry. Their experience spans

Fiber Optic Installation / Fiber Splicing

We offer professional fiber optics installation and splicing services to help you get your project done right. 20+ years experience.

Optical Transport Services Company

ProSplice offers fiber installation, splicing, repair, emergency restoration, DOT traffic control, project management and design/contract consulting to help optimize

FO Splicing – Gulf Technical Company

At Gulf Technical Company, we handle end-to-end FO installation and splicing services, including cable preparation, joint enclosure, termination, testing, and documentation. Our process involves pre-splice

GlobalConnect completes Phase I of Nordic Wave subsea cable

© 2026 FD SOLUCIONES OPTICAL SYSTEMS - All rights reserved

In March 2024, the company completed a 2,600 km fiber cable running from Northern Sweden to Berlin. The cable includes 700 km of subsea cable and uses the island of Bornholm as

Fiber Splicing Companies | Coax Splicing Contractor

Beyond fiber optic splicing, we also specialize in coax splicing services. As a trusted coax splicing contractor, our team will meticulously plan the installation strategy

Fiber Professionals: Next Level Splicing Contractors

It''s a mess. We can solve at least the splicing side of this equation for you. Simply stated, our company leadership has two decades of web technology experience

Fiber Cable Splicing Services

We provide exceptional optical fiber cabling solutions for commercial and residential buildings. We also offer high-grade fiber cable splicing services in UAE.

Diginext Scandinavia

At Diginext, we deliver fibre optic solutions that keep data moving from precision splicing and structured cabling to equipment installations and live-site support across the Nordics and Europe.
