E specializes in FTTH/GPON solutions, aerial, duct, and buried cables, and provides turnkey services including laying, jointing, testing, and maintenance. Their products feature low insertion loss, high tensile strength, and support single-mode and multi-mode fibers. 3.

Premier Cables (Pvt) Limited Located in Karachi, Premier Cables manufactures a wide range of fiber optic cables, including direct-buried, non-metallic duct, self-supporting aerial, and ADSS cables. They cater to long-haul, metropolitan, and FTTH networks. The company holds ISO 9001: 2015 certification and serves major telecom operators like PTCL, Wateen, Multinet, and Cybernet.

4. Pakistan Cables Limited Established in 1953, Pakistan Cables is a leading manufacturer with a history of foreign affiliations. They produce loose tube cables (4 to 144 cores) and direct-buried options designed to resist environmental stress and rodent damage.

Their advanced internal laboratories ensure IEC compliance and high-quality standards. 5. Fast Cables Limited Fast Cables utilizes modern European manufacturing technology, including Catenary Continuous Vulcanization (CCV) lines for superior insulation.

They operate one of the largest integrated cable plants in Pakistan, offering high-volume production with consistent quality and competitive pricing. 6. Newage Cables (Private) Limited While primarily known for power cables, Newage Cables also produces durable optical fiber cables engineered to withstand Pakistan's environmental conditions.

They have over 60 years of manufacturing experience and serve the telecom sector with reliable products.

## Industry Overview

Most Pakistani manufacturers import fiber cores from overseas and perform sheathing, armoring, and jacketing locally. The industry is expanding rapidly due to projects like the China-Pakistan Economic Corridor (CPEC) and increasing FTTH demand. Manufacturers focus on high-quality, durable cables suitable for harsh environments, with flexible order sizes and fast delivery times.

These companies collectively support Pakistan's growing telecommunications infrastructure, providing solutions for broadband, enterprise networks, and large-scale telecom projects.
