Palau Mobile Optical Cable Manufacturer

Overview

ETK Kablo is a leading Turkish manufacturer of fiber optic cables and low-voltage communication cables, supplying high-quality solutions to more than 120 countries worldwide.

Key Takeaways

NEC Corporation of Japan is the manufacturer and system integrator for Palau's submarine optical cable projects. The Belau Submarine Cable Corporation (BSCC), a state-owned enterprise established in 2015, owns and manages Palau's international submarine fiber optic network, including Palau Cable 1 (PC1) and Palau Cable 2 (PC2),.

While BSC

C oversees operations, the actual manufacturing, engineering, and construction of the optical submarine cables have been carried out by NEC Corporation, a leading Japanese supplier with over 50 years of experience in submarine cable systems.

Palau Cable Projects

Palau Cable 1 (PC1): Launched in 2017, PC1 connects Palau to a branching unit on the SEA-US submarine cable system in Guam, providing Palau with its first high-capacity international internet connection.

NE

C supplied the wet and dry cable segments, terminal station equipment, and coordinated installation and testing. Palau Cable 2 (PC2): Contracted in 2021, PC2 is a 110 km optical submarine cable linking Palau to the Echo submarine cable network, providing direct connections to Singapore and the U. S. mainland.

PC2 uses a 100 Gbps optical wavelength multiplexing system and was scheduled for completion in 2022.

NE

C handled the full scope of the project, including cable production, repeaters, route design, ocean surveys, installation, and delivery testing. NEC's Role and CapabilitiesNEC acts as a system integrator, supplying all aspects of submarine cable operations: Manufacturing optical submarine cables and repeatersEngineering and designing cable routesConducting ocean surveys and installationProviding terminal station equipment and testingTraining local personnel for operations and maintenance NEC has constructed over 300,000 km of submarine cables worldwide, making it a trusted partner for Palau's network expansion.

Summary

For Palau's mobile and international optical connectivity, NEC Corporation is the primary manufacturer and contractor, while BSCC owns and operates the network. This partnership ensures high-capacity, redundant, and reliable communications for Palau, supporting economic development and global connectivity.
