Price of Fiber Optic Fusion Splicing Junction Box

Overview

Amazon.com: Fiber Splice EnclosureFTTH Fiber Optic Waterproof Box, Black 4Pcs | IP67 Rated, Outdoor or Indoor, SC Adapter Protection, for Drop Cable, Splic.

Key Takeaways

Fiber optic fusion splicer junction boxes are priced between $0. 25 and $36 per unit, depending on type, material, and supplier.

Retail Options

A typical 2-in 2-out optical cable splicing box with ABS+PC construction, waterproofing, and wall or ground installation capability is available on Amazon for standard retail pricing, which generally falls in the $20–$40 range depending on features and shipping options. These boxes are designed for connecting and storing optical cables and tail fibers, suitable for both ribbon and non-ribbon cables, and include installation accessories.

Wholesale Pricing

For bulk purchases, fiber optic fusion splicer boxes can be obtained at significantly lower prices, ranging from $0. 25 to $36 per unit, depending on volume, material quality, and supplier. Wholesale suppliers often cater to FTTX networks and larger deployments, offering discounts for higher quantities.

Factors Affecting Price

Material and durability: ABS+PC or reinforced plastics increase cost but improve impact and corrosion resistance. Capacity and core support: Boxes supporting more fiber cores or multiple splicing points are priced higher. Waterproofing and sealing: IP-rated enclosures for outdoor use add to the cost.

Accessories and installation kits: Inclusion of mounting hardware or fusion discs can influence the final price. In summary, individual retail units typically cost $20–$40, while wholesale units can start as low as $0. 25, with the upper end around $36 depending on specifications and order volume.
