Price of Galvanized Cable Trays Trough Type

Overview

Cable Tray Prices Discover cable trays with CE certification, available in stainless steel, aluminum, and galvanized materials. Ideal for industrial cable.

Key Takeaways

Galvanized steel trough cable trays typically range from $0. 76 to $1. 09 per meter, depending on supplier, quantity, and specifications.

Pricing Overview

The cost of trough-type galvanized cable trays varies based on material, coating, size, and order volume. For example, suppliers like Langfang Rongxing Industrial Co., Ltd. offer rates around $1. 09 per meter for orders exceeding 3,000 units, while Weifang Guqiang Cable Tray Co., Ltd. provides bulk industrial rates as low as $0.

76 per meter, enabling faster ROI for large-scale projects. Prices are influenced by raw material costs, particularly steel and zinc, and may fluctuate with market conditions.

Material and Coating Options

Common materials include Q235 carbon steel, Q355 low-alloy steel, 304/316 stainless steel, and aluminum alloys. Hot-dip galvanization is the most common coating for corrosion resistance, with some trays also offering powder-coated or zinc-nickel alloy finishes. The choice of material and coating affects both durability and price.

Supplier and Market Considerations

Customization & Modularity: Prefabricated, modular designs may slightly increase cost but reduce installation time. Certifications: ISO, CE, and SGS certifications ensure quality and compliance, sometimes impacting price. Bulk Orders: Larger orders typically reduce per-meter cost due to economies of scale.

Regional Factors: Asia-Pacific suppliers dominate the market, often offering competitive pricing compared to North America or Europe.

Additional Features Affecting Price

Enclosed vs. open trough design: Fully enclosed trays with removable covers provide extra protection against dust, moisture, and EMI, usually at a higher cost. Fireproofing and ventilation: Trays with fire-resistant coatings or perforations for heat dissipation may be priced higher. OEM/ODM services: Custom designs or branded solutions can increase unit cost but offer tailored performance.

In summary, expect galvanized trough cable trays to cost between $0. 76 and $1. 09 per meter, with variations depending on material, coating, design, and order volume.

For precise pricing, suppliers typically provide custom quotations based on project specifications and shipping requirements.
