Price of Greek busbar riveting machine

Overview

This report analyzes the Greek riveting machines market and its size, structure, production, prices, and trade. Visit to learn more.

Key Takeaways

Busbar riveting machines in Greece typically range from €5,000 for used units to €50,000 or more for new, high-end models, depending on specifications and automation level.

Market Overview

The Greek market for riveting machines, including busbar-specific models, is influenced by both local demand and imported industrial equipment. Prices vary significantly based on whether the machine is new or used, its automation level, and the type of rivets it can handle.

New Machines

New busbar riveting machines, especially servo-driven or CNC-controlled units, can cost between €30,000 and €50,000. These machines often feature: Automated rivet feeding and positioningAdjustable riveting heads for different rivet diametersProgrammable stroke and pressure settingsIntegration with production lines for high-volume manufacturing Used MachinesUsed or refurbished machines are available at lower prices, typically €5,000 to €20,000, depending on age, condition, and included features. Examples include: Orbital or pneumatic radial riveting machines for rivet diameters 2–12 mmMachines with servo-driven rotary tables and programmable indexingUnits suitable for both solid and tubular rivets, often retrofitted with modern control systems Custom and OEM OptionsFor specialized industrial applications, custom rivet and machine configurations are available.

Many suppliers offer OEM solutions with flexible pricing, which can be negotiated directly with manufacturers for bulk orders or factory-direct purchases.

Additional Considerations

Shipping, installation, and tooling costs are not always included in the base price. Machines with higher automation or multi-head capabilities command premium prices. Greek suppliers may also provide after-sales support and spare parts, which can influence total cost.

For accurate pricing, it is recommended to contact local distributors or manufacturers directly to request quotes based on your specific production requirements and desired machine features.
