Price of Indoor Aluminum Alloy Cable Trays in Bhutan

Overview

If you are looking for Aluminium Perforated Cable Tray Suppliers in Bhutan, although we operate from Kolkata, we are prepared with trays of high standards.

Key Takeaways

Aluminum alloy cable trays in Bhutan are available from local and regional suppliers, with prices typically ranging from $1. 50 to $3. 00 per meter depending on size, thickness, and type.

Supplier Options in Bhutan

Several suppliers provide aluminum cable trays suitable for commercial and industrial projects in Bhutan. Companies like Kiash Electricals and Hutaib Electricals offer lightweight, corrosion-resistant trays that are easy to install and maintain, with options for perforated, ladder, and basket types. These trays are designed to support heavy cables, provide ventilation, and comply with international quality standards.

Factors Affecting Price

Tray Type and Dimensions: Ladder, perforated, and basket trays vary in cost. Widths range from 40mm to 1000mm, and thicknesses from 3mm to 6mm. Material Quality: High-grade aluminum alloys with corrosion resistance and long lifespan command higher prices.

Customization: Special sizes, powder coating, or pre-galvanized finishes can increase cost. Shipping and Import: Many suppliers operate from India (e.g., Kolkata) and export to Bhutan, so freight and customs duties may affect the final price. Project Scale: Bulk orders often reduce per-meter cost, while small orders may be more expensive.

Market Trends

Globally, aluminum cable trays are in demand due to their lightweight, fire-resistant, and low-maintenance properties, with Asia-Pacific leading production. In Bhutan, suppliers focus on durability and compliance with safety standards, making aluminum trays a preferred choice for industrial, commercial, and renewable energy projects.

Recommendation

For accurate pricing, it is advisable to contact local suppliers directly with your project specifications, including tray type, dimensions, and quantity. Requesting material test certificates (MTCs) and shipping quotes ensures transparency and helps compare total cost of ownership rather than just unit price.
