Price of Outdoor Transparent Distribution Boxes

Overview

The diversity of outdoor transparent distribution boxes is apparent in the types available, each customized to meet specific needs and conditions.

Key Takeaways

Transparent outdoor distribution boxes typically range from $15 to $60 depending on size, material, and features.

Price Overview

Small plastic boxes (5–8 ways, ABS + PC, IP65): Prices start around $15–$25 for compact models suitable for residential or small commercial use, such as the Maker Electric 5-way or 8-way boxes (160–200mm in length) with transparent covers for easy inspection of circuit breakers. Medium-sized boxes (12–15 ways, IP65, ABS plastic): These range from $30–$45, offering more capacity for multiple circuits and enhanced weatherproofing, suitable for outdoor installations in gardens, workshops, or small industrial setups. Larger or specialized boxes (floor-standing or DIN rail compatible, IP65, ABS or aluminum): Prices can reach $50–$60 or more, providing robust protection, shock resistance, and compatibility with DIN rails for organized circuit management.

Key Features Affecting Price

Material: ABS plastic is common and cost-effective, while aluminum or stainless steel enclosures are more durable and expensive. Size and Capacity: Larger boxes with more ways (circuit slots) naturally cost more.

I

P Rating: IP65-rated boxes are waterproof and dustproof, suitable for outdoor use, and slightly higher in price. Design: Transparent covers allow visual inspection without opening the box, adding convenience and slightly increasing cost. Mounting Options: Wall-mounted boxes are generally cheaper than floor-standing enclosures with larger capacity.

Purchase Options

Alibaba: Offers a wide range of sizes and bulk pricing for industrial or commercial orders. Amazon: Provides ready-to-ship options for small to medium boxes, often with customer reviews and warranty information. MRO-Expert: Specialized supplier for compact, IP65-rated boxes like the HT-8, ideal for 8-circuit setups.

Walmart: Offers DIN rail-compatible boxes with transparent covers for home or small business installations. In summary, transparent outdoor distribution boxes are available from $15 for small residential units up to $60 for larger, industrial-grade enclosures, with price influenced by size, material, IP rating, and additional features.
