Price of Polyfiber Optic Cable

Overview

Fiber Optic Cable | Farnell® GermanyBuy Fiber Optic Cable. Farnell® Germany offers fast quotes, same day dispatch, fast delivery, wide inventory, datasheet.

Key Takeaways

Polyfiber (Plastic Optical Fiber) cables range from approximately $0. 43 to $0. 86 per meter, depending on type and configuration.

Polyfiber optic cables, also known as Plastic Optical Fiber (POF), are priced based on factors such as core/cladding diameter, simplex or duplex configuration, and jacket color.

Standard PO

F cables typically cost: Simplex 960/1000µm PMMA, 2. 2mm Red Jacket: $0. 57 per meterDuplex 960/1000µm PMMA, 2.

2mm Black Jacket: $0. 86 per meterSimplex 960/1000µm PMMA, 2. 2mm Black Jacket: $0.

43 per meter Bulk purchases often reduce the per-meter cost, making longer runs more economical. Lead times for custom assemblies are generally 2–4 weeks, and suppliers like FiberFin and Fiberinthebox offer options for custom POF cable assemblies, splitters, and connectors. Factors affecting POF cable pricing include: Cable type: Simplex (single fiber) is cheaper than duplex (two fibers).

Core material: PMMA is standard; other polymers may increase cost. Jacket and durability: Black or reinforced jackets for industrial use may cost more. Quantity: Larger orders reduce unit price due to bulk discounts.

For comparison, traditional glass fiber optic cables cost significantly more, ranging from $0. 09 to $6 per foot depending on single-mode or multimode, strand count, and installation requirements.

PO

F cables are generally easier to handle, more flexible, and suitable for short-distance applications like home networking, automotive, and industrial setups. In summary, expect to pay between $0. 43 and $0.

86 per meter for standard POF cables, with prices decreasing for bulk orders or simpler configurations, making them a cost-effective alternative for short-range optical networking projects.
