Price of Transparent Waterproof Cover for Distribution Box

Overview

Waterproof Distribution Protection Box, ABS Plastic With a waterproof design and double sealing mechanism, this distribution box Verified Supplier Distribu.

Key Takeaways

Transparent waterproof covers for distribution boxes typically range from $10 to $50 per unit, depending on size, IP rating, and material. Transparent waterproof covers are designed to protect electrical components from dust, moisture, and environmental damage while allowing visibility of circuit breakers or indicators. Prices vary based on IP rating (IP65, IP66, IP67), material (ABS or PC plastic), and size or number of ways for circuit breakers.

For example, small wall-mounted covers for 5–12 ways circuit breakers may cost around $10–$20, while larger or higher-rated IP67 covers can reach $30–$50 per unit. Key factors affecting price: IP Rating: Higher ratings like IP67 offer better waterproofing and dust protection, increasing cost. Material: Durable ABS or flame-retardant PC materials are more expensive but provide long-term reliability.

Size and Capacity: Covers for larger distribution boxes or multiple circuit breakers cost more due to increased material and manufacturing complexity. Customization: Some suppliers offer custom sizes, mounting options, or additional features like reinforced sealing strips, which can further affect pricing. Where to buy: Alibaba and Made-in-China offer a wide range of industrial-grade transparent covers with bulk pricing options.
