Tips for Purchasing

Check compatibility with your cable tray system (ladder, ventilated, or solid-bottom). Consider material and finish: hot-dip galvanised clips are suitable for outdoor or corrosive environments. Bulk orders often reduce per-unit cost; contact suppliers for trade pricing.

Pack quantity: some suppliers sell individually, others in packs of 10 or more. By comparing suppliers and considering the type of clip and installation environment, you can select the most cost-effective and durable option for your cable tray system.
