Price of cable tray height restriction signs

Overview

Overhead Safety Goalpost Warning Barrier Flagging This system is great for highlighting any hazards, creating safe routes in work sites, and overhead struc.

Key Takeaways

Cable tray height restriction signs in the UK typically range from £15 to £50 depending on size, material, and reflectivity.

Pricing Overview

Start Safety offers reflective danger overhead cables signs designed to clip onto GS6 height restriction barriers. Prices are not explicitly listed online, but similar premium reflective signs generally cost around £20–£40 depending on size and visibility features. Rainbow Safety provides highly visible electrical hazard signs for overhead cables and height limits.

These signs are designed for compliance with UK health and safety regulations and are suitable for outdoor use. Prices for standard signs are typically in the £15–£35 range.

Amazon U

K lists aluminium height restriction signs (400mm x 300mm) with space to write the height. These signs are priced around £15–£25, offering a lightweight and durable option for smaller installations.

Street Solutions U

K offers reflective signs compatible with GS6 goalpost systems, featuring a writable box for specifying height restrictions. These signs are designed for high visibility and reusability, with prices generally around £25–£50 depending on size and reflective quality. Tool Warehouses provides premium signs for GS6 barriers, similar to Start Safety, with prices in the £20–£40 range.

Fixings and brackets are usually sold separately.

Key Considerations

Material: Aluminium signs are durable and suitable for outdoor use, while plastic or composite options may be cheaper but less long-lasting. Reflectivity: Highly reflective signs improve visibility at night or in low-light conditions, which can increase the price. Size: Larger signs generally cost more but provide better visibility for vehicles and personnel.

Compatibility: Some signs are designed specifically for GS6 height restriction barriers, which may require additional fixings. For the most accurate pricing, it is recommended to check the supplier websites directly or contact them for bulk orders, as discounts may be available for multiple signs.
