Price of double-door outdoor distribution boxes

Overview

Thanks to their robust construction and easy installation, our outdoor distribution boxes are suitable for a wide range of applications - from junction boxes and fuse boxes to project distributors.

Key Takeaways

Double-door outdoor distribution boxes typically range from $50 to $300 depending on size, material, and IP rating.

Price Range and Factors

The cost of double-door outdoor distribution boxes varies based on size, material, and protection rating: Small to medium stainless steel boxes (e.g., 400x300x200mm to 500x400x250mm) generally cost $50–$150 and are suitable for residential or light commercial use. Larger or heavy-duty boxes with IP66 or IP65 ratings for industrial applications can range from $150–$300 or more, especially when made from high-quality stainless steel and equipped with safety locks and removable mounting plates. Material: Stainless steel offers corrosion resistance and durability, while galvanized steel or powder-coated metal may be slightly cheaper.

I

P Rating: IP66 provides dust-tight and water-resistant protection, which is essential for outdoor installations, and can increase the price.

Features Affecting Cost

Double doors for easier access and maintenanceRemovable galvanized mounting plates for flexible component installationSafety locks to prevent unauthorized accessWaterproof and dustproof design for outdoor durabilityMultiple sizes to accommodate different electrical setups Where to BuyAmazon offers a variety of sizes and IP ratings, with prices starting around $50 for smaller boxes. Alibaba provides bulk purchasing options for industrial-grade boxes, often with customizable features. Home Depot carries outdoor breaker boxes suitable for residential use, with pricing depending on brand and specifications.

When selecting a box, consider the environmental conditions, number of circuits, and future expansion needs, as these factors influence both the size and cost of the distribution box.
