Price of ordinary optical fiber cable in Laos through conduit

Overview

Connect with Verified Fiber Optic Cables Buyers in Laos | VolzaAccess 36 verified Fiber Optic Cables buyers in Laos with contact numbers, shipment history.

Key Takeaways

The estimated cost of ordinary optical fiber cable in Laos for conduit installation ranges from approximately $0. 10 to $1. 50 per foot, depending on fiber type, strand count, and installation complexity.

Cost Overview

In Laos, fiber optic cables are primarily imported from countries like Vietnam, with imports growing steadily in recent years. The price of optical fiber cable depends on several factors: Fiber Type: Single-mode fiber is generally cheaper per foot than multimode fiber. Strand Count: Higher strand counts increase the cost proportionally; for example, a 12-strand cable may cost around $0.

50 per foot, while a 24-strand cable can reach $1. 00 per foot. Cable Construction: Armored or outdoor-rated cables suitable for conduit installation are more expensive, typically ranging from $0.

50 to $5 per foot. Installation Complexity: Underground conduit installation adds labor and trenching costs, which can significantly increase the total project cost.

Practical Price Estimates

Wholesale Material Cost: $0. 09 to $1. 52 per foot for bulk purchases of ordinary fiber optic cable.

Retail or Installed Cost: Including conduit, trenching, splicing, and termination, the cost can range from $1 to $6 per foot depending on project scope and local labor rates. Example: A simple single-mode 1-core FTTH drop cable may cost around $0. 13 per foot, while a 288-strand backbone cable suitable for conduit installation can reach $6 per foot.

Additional Considerations

Local Market Variability: Prices in Laos may fluctuate based on import tariffs, shipping costs, and supplier availability. Project Size: Larger projects may benefit from bulk discounts, reducing per-foot costs. Connector and Termination Type: Pre-terminated cables or specialized connectors can increase costs.

In summary, for ordinary optical fiber cable installed through conduit in Laos, expect a material cost of roughly $0. 10–$1. 50 per foot, with total installed costs potentially reaching $1–$6 per foot depending on cable type, strand count, and installation complexity.
