Price of polymer cable trays from aluminum plants

Overview

The average cable tray price per meter ranges from $2 to $25, depending on material, type, size, and surface finish. □□ For bulk orders or project pricing, the cost can be significantly lower. They're designed to be highly resistant to corrosion, UV radiation, and various chemicals, making them ideal for protecting cables in challenging environments. We not only have our own warehouse and production workshop, but also have a huge galvanizing plant. The main cost driver is the material used in manufacturing: □□ Galvanized steel is the most common. The global cable tray market is experiencing robust growth, driven by increasing infrastructure development, the expansion of data centers, and the adoption of smart technologies. The market was valued at USD 5.
