Price of wires used in cable trays

Overview

Cable Tray Price Per Meter: Market Analysis & Cost Discover the key factors affecting cable tray price per meter, including materials, demand, and competit.

Key Takeaways

Tray-rated electrical wires typically cost between $0. 50 and $1. 50 per foot, depending on gauge, conductor type, and insulation.

Common Wire Types and PricingTHHN/THWN Wire: This is the most widely used wire for cable trays in commercial and industrial applications. For example, a 12-gauge stranded copper THHN wire is priced at approximately $0. 76 per foot or $76 for a 100-foot roll at Home Depot.

Larger rolls, such as 500 feet, cost around $128, reducing the per-foot cost to about $0. 26.

THH

N wires are rated for 600 volts and suitable for dry or wet locations when combined with THWN rating. Tray Cable (TC-ER): These cables are designed for exposed runs in cable trays without requiring conduit. They are crush- and impact-resistant, flexible, and often come in multi-conductor configurations.

Pricing varies by gauge and number of conductors, typically ranging from $0. 50 to $1. 50 per foot for standard 16–12 AWG sizes.

Wire Mesh or Basket Tray Wires: For data or low-voltage applications, smaller stranded copper wires are used in wire mesh trays. These are generally less expensive, often $0. 50–$1.

00 per foot, depending on the number of conductors and insulation type.

Factors Affecting Wire Cost

Gauge and Conductor Material: Copper is standard and more expensive than aluminum. Larger gauges (lower AWG numbers) cost more due to higher copper content. Insulation Type: THHN, THWN, or PVC jackets affect price.

Heat- and moisture-resistant insulation increases cost. Length and Packaging: Buying in bulk (500–1000 ft rolls) reduces per-foot cost compared to smaller rolls. Voltage Rating and Shielding: Higher voltage ratings or double-shielded cables for EMI protection increase price.

Practical Considerations

Installation Efficiency: Using tray-rated wires in open cable trays reduces labor costs compared to conduit, as wires can be laid directly without pulling through pipes. Future Expansion: Cable trays allow easy addition of new wires without replacing existing conduits, which can save money in long-term projects. Local Market Variations: Prices may vary by region due to shipping, labor, and material costs.

In summary, for standard 12–16 AWG copper tray-rated wires, expect $0. 50–$1. 50 per foot, with larger rolls offering better value.

For specialized applications, such as double-shielded or high-temperature cables, prices can be higher. Always consider the type of tray, wire gauge, and insulation requirements when budgeting for cable tray installations.

Cable Tray Price Per Meter: Market Analysis & Cost

Discover the key factors affecting cable tray price per meter, including materials, demand, and competition. Get cost insights and future

How Much Do Cable Trays Cost? A 2026 Comparison vs. Conduit

Discover the 2026 cost breakdown for cable trays compared to conduit and wire mesh. Compare material prices, labor savings, and performance to find your best value.

Cable Tray Price List

Cable tray are used in wiring of buildings to support electrical cables and wires that are used to distribute power, controls and communication. The cable tray are for hot dip galvanized

Cable Tray Wire, MTW & THHN Wire | Industrial Wire

© 2026 FD SOLUCIONES OPTICAL SYSTEMS - All rights reserved

Explore cable tray wire, MTW wire, and THHN wire for industrial and electrical applications with flexible, durable insulation and 600V ratings.

Cable Tray Wire | McMaster-Carr

Choose from our selection of cable tray wire, including no-conduit-required control cable, slotted wire duct, and more. Same and Next Day Delivery.

Cable Tray Installation Cost per Meter – Price Estimator

The cost of steel cable trays generally falls between $5 and $25 per meter, depending on several factors such as the tray''s gauge, finish, and the specific features of the tray.

Cable Trays, Cable Management Trays | RS

These trays are designed to hold and support various types of cables, including power cables, data cables, and communication cables. The cables are placed inside the trays and can be easily routed

Cable Tray Price List Philippines Updated 2026

Cable tray prices fluctuate based on material composition and dimensions, with an average range from approximately ₱1,310.24 to ₱5,307.10.

Wire Cable Trays | McMaster-Carr

Choose from our selection of wire cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.

10 Best Desk Cable Management Trays to Keep Your Workspace

Maintaining a tidy workspace can be challenging, especially with all the cables and wires cluttering your desk. You might find yourself constantly untangling cords or searching for the right

Cable Tray Australia | Cable Management Tray | Cable Basket

Cable Trays Cable trays are a type of cable management system used to support and organise electrical cables and wires in commercial, industrial, and residential settings. These cable tray systems are

Cable Trays, Cable Management Trays

Cable trays are a type of cable management system used to support and organize electrical cables and wires in commercial, industrial, and residential settings. They are typically made of metal, such as

Cable Tray Manufacturer with Galvanizing

© 2026 FD SOLUCIONES OPTICAL SYSTEMS - All rights reserved

Explore cable tray systems by Holdee Electric, including wire mesh, ladder, perforated tray and cable trunking, with in-house galvanizing and project support.

Wire Mesh Cable Tray

Find here Wire Mesh Cable Tray, Wire Basket Cable Tray manufacturers, suppliers & exporters in India. Get contact details & address of

Types of Cable Typically Used in Cable Tray

TC cables are rated for 600 volts and can be used in industrial power or control circuits, where flame retardant cables are desired. Allowed installations include cable trays, raceways, and outdoor

Cable Tray Price List | Electrical Works

Cable tray price list for materials including cable tray, conduit, wires and other materials needed for electrical installation.

Wire Mesh Cable Tray Wire Mesh Cable Trays

Straight-section wire mesh trays route and support cable in a straight line, or they may be cut or bent for complex runs. They''re lined with wire mesh to promote air circulation, which prevents overheating.

Under Desk Cable Management Tray No Drill Metal Mesh with

No drill mounted: instructions included in the package, this under desk cable management bowl is suitable for wood, metal, glass, marble table, also suitable for storing spices in the cupboard.
