Price quote for 48-core ADSS optical cable

Overview

Understanding The Price Factors of 48 Core ADSS CableAs of 2023, the 48 core ADSS cable price ranges between 1.50 to 3.50 per meter, depending on specifica.

Key Takeaways

48-core optical cables typically range from USD $5. 50 to $9. 56 per meter, depending on type, material, and order quantity.

Pricing OverviewOPGW 48-core cables: Market prices generally cluster between $5. 50–$9. 56 per meter, with bulk orders (≥10 km) often landing near $6.

20–$7. 80 per meter. Prices vary based on fiber type (single-mode G.

652. D or G. 655), aluminum/steel stranding, and whether spare fibers are included.

Single-mode 48-core cables: Factory OEM suppliers offer competitive pricing, especially for bulk orders, with customization options that can reduce costs for large-scale projects. Armored 48-core cables: Heavy-duty metallic armored cables designed for underground or harsh environments are available, offering low attenuation, mechanical strength, and compliance with ITU-T G. 652D standards.

Pricing is generally higher due to enhanced durability and protective features. General per-meter pricing: For aerial, duct, or submarine applications, prices vary depending on jacket type (PE/LSZH), certification, and fiber mode, typically within the $5–$10 per meter range.

Factors Affecting Price

Cable Type: OPGW, armored, duct, or aerial cables have different construction and cost implications. Fiber Mode: Single-mode fibers are standard for long-distance transmission; multi-mode may be cheaper but less suitable for high-capacity networks. Material & Armoring: Steel or aluminum armoring increases mechanical protection and price.

Certifications: Compliance with ITU-T, RDSO, or CE standards can affect cost. Order Quantity: Bulk purchases significantly reduce per-meter pricing.

Recommendations

For telecom or industrial projects, armored single-mode 48-core cables provide long-term reliability and low attenuation. For high-voltage transmission lines, OPGW 48-core cables are preferred due to dual functionality as a lightning protection conductor and optical pathway.

Contacting OE

M distributors directly can yield tailored quotes, bulk discounts, and customization options. In summary, a typical 48-core optical cable will cost $5. 50–$9.

56 per meter, with exact pricing depending on type, armoring, fiber mode, and order volume. For precise procurement, requesting a wholesale quote from certified suppliers is recommended.
