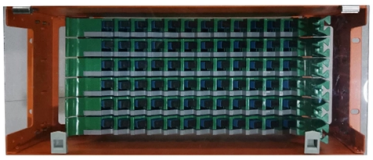
Price quote for corrosion-resistant and explosion-proof electrical distribution boxes in Albania



Overview

Constructed from corrosion-resistant, copper-free aluminum, the GUB series terminal boxes and junction boxes are available in a variety of sizes and configurations to suit different installation needs.

Key Takeaways

Explosion-proof and corrosion-resistant electrical distribution boxes in Albania typically range from $150 to $1,200 per unit, depending on size, material, and certification.

Material and Corrosion Resistance Options

Aluminum Alloy Boxes: High-strength, copper-free aluminum enclosures with anti-static coatings provide excellent corrosion resistance and mechanical strength, suitable for offshore, chemical, and high-risk environments. Glass Fibre Reinforced Polyester (GRP): GRP terminal boxes offer superior protection against UV radiation, corrosion, and harsh industrial conditions, maintaining structural integrity for decades.

Explosion-

Proof Standards and CertificationsBoxes comply with ATEX, IECEx, UL 1203, and NEC 500 standards, ensuring safe operation in hazardous zones such as Class I Division 1/2 or Zones 1, 2, 21, 22. Protection ratings like IP65 or IP66 prevent water and dust ingress, critical for outdoor or industrial installations.

Price Ranges

Compact Junction Boxes: $150–$300, suitable for small I/O connections or confined spaces.

Medium-

Sized Terminal Boxes: $400–$800, offering reinforced construction and corrosion resistance for industrial applications. Large Control or Distribution Boxes: $900–$1,200+, designed for isolating motors, pumps, or circuits in hazardous areas.

Customization and Supplier Options

Many suppliers, including Warom Group and ATO, provide customizable entry points, terminal configurations, and cable gland options to meet specific installation requirements. GRP-based boxes like HARDO HTB1P series allow modular configurations for intrinsically safe circuits and flexible earthing arrangements. For Albania, international suppliers can ship directly, and local distributors may provide additional support for installation and compliance verification.

Recommendation

To obtain an exact price quote, it is recommended to provide suppliers with: Required box size and number of terminalsMaterial preference (aluminum or GRP)Hazardous zone classificationAny customization needs (cable entries, modular design, earthing bars) Suppliers such as Warom Group, ATO, and HARDO can provide detailed quotations and lead times based on these specifications.

Explosion-Proof Enclosures: Pricing, Sizes & Lead Times

Understanding the explosion proof enclosure price, material options, certifications, sizing, and lead times is essential for choosing the correct solution

Ex Electrical Equipment

Ex Electrical EquipmentKey Features of Ex Electrical EquipmentBenefits of Using Explosion Proof Electrical Equipment Enhanced Safety: Reduces the risk of explosions, protecting both personnel and equipment.Regulatory Compliance: Meets stringent safety standards and legal requirements for operation in hazardous areas.Operational Reliability: Designed for robust performance in harsh and challenging environments st-Effective: Prevents costly accidents and downtime, ensuring continuous and safe operation.See more on mam-ex pepperl-fuchs

Terminal and Junction Boxes (Ex d) | Explosion Protection

© 2026 FD SOLUCIONES OPTICAL SYSTEMS - All rights reserved

Constructed from corrosion-resistant, copper-free aluminum, the GUB series terminal boxes and junction boxes are available in a variety of sizes and configurations to suit different installation needs.

Explosion Proof Terminal Boxes Manufacturer & Supplier | For

Warom Explosion Proof Terminal Boxes Manufacturer & Supplier offers high-strength terminal boxes for hazardous area cabling and management. Get a quote today!

Ex d Junction Boxes

Technor CP/CPS is a hazardous area junction box which offers Ex-d IIC mode of protection and is suitable for use in hazardous areas of industrial plants for indoor and outdoor applications.

Explosion Proof Enclosures

Supermec ATEX Junction Box & Enclosures are designed to satisfy most of our clients'' requirements for CONTROL explosion-proof and flameproof enclosures.

Ex Enclosure Systems

Have we aroused your interest in explosion-proof aluminium enclosures? Ask now for a non-binding offer. The ROSE polyester enclosures are also available as explosion-proof enclosures in the same

European Explosion-Proof Enclosures | EX Industries

Explore EX Industries'' certified European explosion-proof enclosures, designed for hazardous environments. Ensure safety and compliance with our high-quality solutions.

Explosion Proof Box Manufacturer/Supplier/Factory, Hazardous Area ...

As a flameproof box manufacturer, SUREALL provides different types of explosion proof boxes and fittings. SUREALL innovated the advanced machining and testing technology to ensure the quality of

Warom Explosion Proof Equipment | ATEX IECEx Explosion-proof

Warom specializes in manufacturing explosion-proof electrical equipment, with products covering explosion-proof lighting fixtures, explosion-proof distribution boxes, explosion-proof control

IECEx Explosion Proof Lighting for Iraq Oilfields and Refinery Sites

At Hexlon, we treat lighting selection as part of the full hazardous-area electrical package, because the light, cable entry, bracket, junction box, and documents all affect approval and installation. Figure 1.
