Professional fireproof cable trays in South Sudan

Overview

sudan-fireproof-cable-trays Manufacturer/Producer Since 1982, VALDINOX has been designing and manufacturing wire mesh cable trays, supports, and easy-insta.

Key Takeaways

Top fireproof cable tray brands suitable for South Sudan include JetBlack, Sindko Metal, Africtrays, Steelworld Manufacturing, and international suppliers like Legrand and Atkore International. Key Brands and Suppliers1.

Jet

Black Jet

Black specializes in cable tray fire protection systems for high-risk environments such as petrochemical plants and offshore installations. Their solutions include certified fireproof blankets that protect trays at temperatures up to 1,268°C for two hours, offering critical time for evacuation and asset protection.

Jet

Black systems are customizable, removable, and ISO 22899 certified, making them suitable for industrial and commercial projects in South Sudan. 2. Sindko Metal Sindko Metal provides fireproof powder-coated trunking cable trays, ideal for equipment rooms, control rooms, and vertical wells.

These trays are designed for fire safety applications and are suitable for industrial and commercial installations where fire resistance is required. 3.

African Manufacturers

Africtrays (South Africa): Offers high-quality, corrosion-resistant cable trays suitable for industrial applications, including fireproof options. Steelworld Manufacturing (Egypt): Specializes in galvanized and stainless steel cable trays for construction and energy projects, with fire-resistant capabilities. Connect Electrical (Kenya): Provides durable, climate-resistant cable trays for telecommunications and utilities, including fireproof solutions.

4.

International Brands

Legrand (France): Known for Cablofil wire mesh trays, which are easy to install and adaptable for fire-resistant applications. Atkore International (USA): Offers a broad range of heavy-duty, fireproof cable trays for industrial and data center projects. Thomas & Betts (ABB Group) and Eaton B-Line: Provide durable, easy-to-install trays with fire-resistant options for commercial and industrial sectors.

Considerations for South Sudan

Environmental Conditions: Choose trays resistant to heat, humidity, and corrosion, as South Sudan has a tropical climate. Compliance Standards: Look for products meeting ISO 9001, CE, or SANS standards to ensure quality and safety. Local Availability: African suppliers like Africtrays, Steelworld, and Connect Electrical may offer faster delivery and local support compared to international brands.

Application Type: Ladder-type trays are preferred for heavy-duty industrial use, while mesh or trunking trays are suitable for data centers and commercial buildings. By selecting from these brands, businesses in South Sudan can secure fireproof cable tray solutions that meet safety standards, withstand harsh conditions, and support critical infrastructure.
