Recommended Manufacturers of Flame-Retardant Cable Trays in the Netherlands

Overview

With our fire protection for cable systems, we ensure that your lines meet the highest safety standards and are reliably protected in the event of an emergency.

Key Takeaways

Top recommended manufacturers in the Netherlands include Flamro, Meka Pro, Basor Electric, and EAE Electric, all offering fire-resistant cable trays tested to international standards.

Flamro

Flamro provides fire protection solutions for cables and cable trays, including FLAMMOTECT-A coatings and DG-CR 0. 7 fire protection tapes. Their products are designed to prevent flame propagation and maintain cable functionality during fire incidents.

Flamro solutions are suitable for industrial buildings, hospitals, airports, power stations, and offshore facilities, and they offer protection against environmental factors such as UV, moisture, and chemicals.

Meka Pro

Meka Pro specializes in fire-resistant cable support systems that are extensively tested according to EN 1363-1 standards. Their product range includes over 1,200 fire-tested items, ensuring that critical electrical equipment continues to operate during a fire. Meka Pro emphasizes non-toxic materials and compliance with international standards, making their cable trays suitable for high-safety installations.

Basor Electric

Basor Electric focuses on cable trays with rigorous fire resistance testing to maintain circuit integrity during fire events. Their systems are designed to support emergency lighting, smoke extractors, and fire alarms, ensuring functionality in public and high-occupancy buildings. Basor Electric applies European and international standards to verify the fire behavior of their cable management systems.

EA

E ElectricEAE Electric offers GRP (Glass Reinforced Plastic) cable trays and ladders, which are fire-resistant, self-extinguishing, and corrosion-resistant. These trays are suitable for interior and exterior applications, including oil and gas facilities, tunnels, bridges, and marine environments.

EA

E products are certified according to IEC 61537, DEKRA, and NEMA FG-1 standards, providing high strength and durability in challenging conditions.

Summary

For projects in the Netherlands requiring flame-retardant cable trays, these manufacturers provide reliable, tested solutions: Flamro – fire protection coatings and tapes for cable traysMeka Pro – fire-resistant metal cable support systemsBasor Electric – fire-tested cable trays for critical installationsEAE Electric – GRP cable trays with fire and corrosion resistance These suppliers ensure compliance with international fire safety standards and are suitable for industrial, commercial, and infrastructure applications.
