ST fiber optic pigtail multimode

Overview

This is a high-quality multimode OM1 62. 5/125μm fiber optic pigtail featuring ST/UPC connectors. Built with premium zirconia ferrules and durable composite hardware, these pigtails deliver excellent optical performance, durability, and consistency for modern network applications. We stock a wide variety of pigtail fiber types, including single mode and multimode, with all major connector options like SC, LC, ST, and FC available with UPC or APC polish. Economy pigtails offer over a. For organizations relying on legacy industrial systems or older fiber infrastructure, the ST Multimode Fiber Pigtail (ST-MM) is the ultimate compatibility solution. The connector side of the pigtail is used to link the equipment, while the other side is fusion spliced together with the fibre cable. By splicing together the fibre glasses, it can reach a minimum.
