Simple Price of Cable Tray Supports

Overview

Amazon.com: Wire Tray SupportsPrice and other details may vary based on product size and color. This product has sustainability features recognized by trus.

Key Takeaways

Simple cable tray supports typically range from $15 to $65 per unit depending on size, material, and mounting type.

Retail Pricing Examples

Amazon offers wire mesh and under-desk cable tray supports starting around $15–$25 for small brackets or clamp-on supports, with larger or multi-pack options reaching $50–$65 per set. Walmart lists similar under-desk and floor-mounted supports from $15 to $62, depending on width and load capacity. Graybar and McMaster-Carr provide industrial-grade supports, including steel, aluminum, and pre-galvanized options, with prices typically starting around $15–$25 for basic 6–12 inch steel supports and increasing for larger or specialized brackets.

Material and Type Impact on PriceSteel (galvanized or powder-coated): Most common, durable, and cost-effective; small supports range $15–$25, larger or heavy-duty supports $30–$50. Stainless steel: Higher corrosion resistance, ideal for harsh environments; prices start around $25–$40 for standard supports. Aluminum: Lightweight and corrosion-resistant, suitable for elevated or sensitive installations; typical prices $20–$35.

Size and Load Considerations6–12 inch supports: Suitable for small cable runs, priced $15–$25. 12–16 inch supports: Medium load capacity, priced $20–$35. 16–24 inch or heavy-duty supports: For larger cable trays or industrial applications, prices range $30–$65.

Tips for BudgetingMulti-pack purchases often reduce per-unit cost. Clamp-on or under-desk supports are generally cheaper than wall-mounted or floor-mounted industrial brackets. Consider future expansion: selecting supports with 20–30% extra load capacity can prevent costly replacements.

This overview provides a practical range for simple cable tray supports, helping you plan purchases for office, commercial, or industrial installations.
