Singapore Direct Burial Optical Cable Manufacturer

Overview

Our Services ASEAN Cableship offers quick and effective access to submarine cable installation and maintenance services. We also provide turn-key solutions.

Key Takeaways

Several reputable brands and manufacturers in Singapore supply direct burial optical cables, including Singtel, Nexans Singapore, Prysmian Group, Tai Sin, and Keystone Cable.

Key Brands and Manufacturers

Singtel (Singapore Telecommunications Limited) – Singapore's largest telecom operator, providing high-performance fiber optic cables for both consumer and enterprise networks, including direct burial installations. Nexans Singapore Pte Ltd – Part of the global Nexans Group, offering a wide range of fiber optic cables suitable for telecommunications, data centers, and industrial projects, including armored and direct-buried options. Prysmian Group Singapore – A world leader in cable manufacturing, providing cutting-edge fiber optic solutions for telecom and energy sectors, including outdoor and direct burial cables.

Tai Sin – Established in 1980, Tai Sin manufactures power, control, and instrumentation cables, with products designed for durability and resistance to moisture and mechanical stress, suitable for direct burial applications. Keystone Cable – Offers low and medium voltage power cables, control cables, and fire-resistant cables, engineered for reliability in harsh environments, including outdoor and buried installations. Yitofc and Guangdong Yitong – International suppliers providing high-quality fiber optic cables such as GYTA, GYXTW, ADSS, and Drop Cable, widely used in Singapore for both large-scale and custom projects.

Cable Types and Features

Armored Loose Tube Cables – Provide crush and rodent protection, ideal for direct burial in trenches or plowed installations. Ribbon Fiber Cables – High-density, lightweight, and durable, enabling mass-fusion splicing for fast installation and restoration. Waterproof and Reinforced Cables – Designed to prevent water ingress and withstand harsh outdoor conditions, suitable for long-term underground deployment.

Installation Considerations

Direct burial optical cables in Singapore are typically installed in trenches or using vibratory plows. Armored construction is recommended to protect against mechanical damage and environmental factors. Companies like ASEAN Cableship provide turnkey solutions, including surveying, planning, burial, and testing of optical cables, ensuring compliance with local regulations and optimal protection.

By selecting cables from these trusted brands and considering armored or reinforced designs, you can ensure reliable, long-lasting performance for direct burial fiber optic installations in Singapore.
