Single-mode anti-tracking optical cable for railway communication

Overview

The cables are designed for long distance telecom links on optical fibres along railway tracks. Fibre optic cable for building backbone and horizontal distribution applications, designed to be compact and yet offer excellent tensile performance making it suitable for a wide range of applications which can be indor telephone cables or trackside telecommunications cables for Railways. 0118 A-2Y (L)2Y2YV / A-2Y (L)2Y2YB2Y / AJ-2Y (L)2Y2YDB2Y. x1x0,9/1,4/1,8 BayRail® intermittent automatic train control – control cable, fixed installation, acc. SNCF ST 2513-99 Singlemode optical fibres G652 coloured (6 or 12 per. Prysmian has developed new cable designs and materials that provide enhanced resistance to chemicals and mechanical stress, improved fire safety, and enhanced electromagnetic compatibility (EMC) and transmission capacity. Tube: PBT polyester tubes From 12 to 72 OFs: 1 to 6 tubes; 144.
