South African optical modulator QSFP

Overview

Qsfp Optical Transceiver Manufacturers & Factories in South AfricaREALSEA QSFP optical transceivers are deployed across a wide range of South African indus.

Key Takeaways

QSFP optical modulators in South Africa include 40G and 100G transceivers, supporting high-speed, long-distance fiber connectivity for enterprise and data center networks.

Types and Specifications100

G QSFP28 CWDM4 ModulesExample: Optcore QSFP28 CWDM4 transceiver supports 100GbE networking over single-mode fiber up to 2 km. Features include duplex LC interface, plug-and-play installation, digital diagnostics monitoring, and low power consumption. Fully compliant with QSFP28 MSA standards, ensuring compatibility with a wide range of switches, routers, and networking platforms.

40G QSFP+ ModulesAvailable in multiple variants such as 40GBASE-SR4 (850nm, 150m), 40GBASE-LR4 (1310nm, 10 km), and 40GBASE-ER4 (1310nm, 40 km). Connector types include LC duplex and MTP/MPO, suitable for both short-range and long-range deployments. Hot-swappable and Cisco-compatible, ideal for upgrading existing network infrastructure.

Other QSFP Options40

Gbps QSF

P modules with 1310nm wavelength and single-mode fiber for distances up to 20 km. Netshield South Africa offers a broad range of SFP, SFP+, QSFP, and QSFP28 modules in commercial, extended, and industrial temperature ranges, allowing flexible deployment in diverse environments.

Applications and Benefits

Data Centers & Enterprise Networks: High-density, high-bandwidth connectivity for servers, storage, and core switches. Telecommunications: Reliable long-distance optical transmission with low latency. Scalability: QSFP modules allow incremental network upgrades without replacing existing infrastructure.

Efficiency: Low power consumption and integrated diagnostics simplify network management and reduce operational costs.

Considerations for Deployment

Ensure compatibility with existing network equipment (switches, routers). Choose the appropriate wavelength and fiber type (single-mode vs multimode) based on distance requirements. Consider temperature range and environmental conditions for industrial or extended deployments.

Utilize digital diagnostics monitoring for real-time performance tracking and troubleshooting. In South Africa, suppliers like ComX, ShopFiber, Huihong Technologies, and Netshield provide a variety of QSFP modules suitable for both 40G and 100G networks, making it feasible to source high-performance optical modulators locally.

Netshield SFP, SFP+, QSFP & QSFP28 Transceiver Modules With the growth in cloud applications, digital solutions and IoT, the demand for high quality data networks continues to flourish.

QSFP Module

Ideal for use in fiber optic networks, data centers, and telecommunications infrastructure, this QSFP module offers a compact form factor and easy hot-swappable functionality. Its compatibility with LC

Transceiver Modules QSFP 40GB

The 40G QSFP''s also boast active optical cables for short haul in data centre connectivity between two core switches. As a result of added features, you can leverage its monitoring capabilities to detect

MikroTik QSFP28 100G Module

The module has built-in digital diagnostic functions, including optical power monitoring. It has been designed to meet the harshest conditions, including temperature, humidity, and EMI interference, so

QSFP-DD optical modulator genuine product

Cisco QSFP-DD and OSFP 800G coherent optical modules are supported on Cisco switches and routers. For more details, refer to the Cisco Transceiver Modules Compatibility Matrix.

MikroTik QSFP28 100G module SM 2km 1310nm

This optical module offers four independent full-duplex channels with up to 25 Gbps per channel bandwidth and an aggregate bandwidth of 100 Gbps. The module has built-in digital diagnostic

Fiber Optic Transceiver Modules | Optoelectronics | DigiKey

Shop DigiKey''s large in-stock selection of Fiber Optic Transceiver Modules. View inventory, pricing and order now for same day shipping!

Qsfp Optical Transceiver Manufacturers & Factories in South Africa

Featured QSFP Optical Transceiver Products for South Africa Delivering cutting-edge 400G and 800G optical transceiver solutions to South African data centers, telecom operators, and enterprise

Fiber Optic

Fiber Optic Transceivers Manufacturer As specialized fiber optic transceivers manufacturer, Star Computer Limited is located in Johannesbur, South Africa.
