Special Offer on Optical Modules for Communication Equipment

Overview

We offer the fiber optic sfp module in many wavelengths. 850nm is popular for short runs. 1310nm is great for longer tasks.

Key Takeaways

You can access special offers and volume discounts on high-speed optical modules, including 100G, 400G, and 800G transceivers, from suppliers like Cisco, FS.com, and COBTEL.

Cisco Optical Modules Promotions

Cisco currently provides volume discounts on 100G and 400G optics, allowing organizations to maximize port utilization on switches and routers while reducing costs. These offers are ideal for enterprises, data centers, and service providers looking to upgrade or expand their network infrastructure efficiently. Cisco also provides extensive documentation, configuration guides, and webinars to support deployment and troubleshooting during the promotion period.

COBTE

L Optical Module SolutionsCOBTEL offers a wide range of 800G and 400G optical modules, including QSFP-DD, OSFP, and QSFP112 form factors. Their modules support both multi-mode and single-mode applications, with features like hot-pluggable design, CMIS compliance, and link lengths up to 100 meters over OM4 fiber.

COBTE

L modules are suitable for high-performance computing, AI, and accelerated networking environments. FS.com Offers and ServicesFS.com provides a comprehensive portfolio of optical transceivers ranging from 1G to 800G, including DAC, AOC, and AEC cables. They offer 24/7 support, compatibility testing, and fast delivery from nearby warehouses.

FS.com emphasizes quality assurance with lab-tested interoperability and performance verification, making it a reliable source for urgent or large-scale optical module purchases.

Fibermarkt Fiber Optic Solutions

Fibermarkt supplies fiber optic modules, patch cords, MPO cables, and breakout solutions compatible with major brands like Cisco, HP, Dell, and Juniper. Their products support CWDM and DWDM multiplexing, enabling network expansion without additional fiber. Fibermarkt also offers plug-and-play media converters and industrial-grade solutions for outdoor and remote deployments.

Recommendations

Check supplier websites for current promotions and volume discounts. Cisco's optics page is a direct source for limited-time offers. Compare specifications such as link length, power consumption, and connector type to ensure compatibility with your network equipment.

Consider multi-vendor options like FS.com or COBTEL for flexible supply and rapid delivery, especially for high-speed 400G or 800G deployments. Leverage technical support and compatibility tools to confirm module interoperability with existing switches and routers. By exploring these suppliers, you can secure cost-effective optical modules while ensuring high performance and reliability for your communication networks.

Our Optical Modules offers exceptional quality within the Communication Module category.When seeking a communication module, prioritize factors such as compatibility with your system, speed &

FiberOptic solutions

At Fibermarkt, we provide compatible and reliable optical modules at a great price. Our experienced group of engineers specializing in optical technology ensures

10-800G Optical Transceiver | Wholesale Optical

Wholesale 10G–800G optical transceivers by Fibrecross: high-performance, cost-effective modules with dedicated support for data centers infrastructures.

Optics and Transceivers | Fiber Optical Transceivers

The fiber optic transceiver modules can work in any network architecture through professional capabilities and in-house lab test. Click to get your transceiver modules from nearby warehouses. 30

Buy Optical Module for Test Equipment | Micro Precision

Enhance optical measurements with an optical module. Perform precise optical sampling and waveform analysis for signal integrity.

Communications

Communications - Optical Modules Optical modules are the small interfaces that connect the fiber to the traditional copper network, data center, repeater module and most of the end points in optical

Wholesale Optical Transceivers Module | 100G QSFP28, 40G QSFP

Shop high-speed optical transceivers from Unitekfiber. We offer 100% compatible 40G, 100G, and 400G QSFP-DD modules for data centers. Expert technical support & wholesale pricing.

Optical Solutions

As a leading supplier of advanced fiber optic components, Molex has an extensive product offering that includes a full range of fiber optic connectors and adapters.

What is an Optical Module?
