Ssal distribution box price

Overview

Explore distribution box cost factors, safety features, and budget solutions. Learn how to select the right panel for your needs and budget.

Key Takeaways

Stainless steel distribution boxes typically range from $100 to $1,000 or more depending on size, material, and customization.

Price Overview

The cost of a stainless steel distribution box depends on several factors including material quality, size, number of circuits, IP protection rating, and customization options. Standard industrial-grade boxes made from high-quality stainless steel are designed to withstand harsh environments, corrosion, and impact, making them suitable for outdoor or industrial installations. Basic models for residential or light commercial use may start around $100–$200, while larger, heavy-duty, or customized units for industrial applications can exceed $1,000.

Factors Affecting Price

Material: Stainless steel (304L or 316L) is more expensive than plastic or mild steel due to durability and corrosion resistance. Size and Capacity: Larger boxes with more circuits or higher amperage ratings cost more. Protection Rating: IP66 or IP67 rated boxes for outdoor or hazardous areas are priced higher than indoor-rated units.

Customization: Options like multi-bay designs, ATEX certification, cable management, and integrated monitoring systems increase cost. Accessories: Additional components such as WAGO terminals, cable glands, or mounting kits can add to the total price.

Supplier Options

Shanghai Metal Corporation offers a wide range of stainless steel distribution boxes suitable for industrial and outdoor use, with high durability and corrosion resistance. Intratec provides cost-effective distribution boxes for both private and commercial projects, with various IP protection classes and accessories available. R.

STAH

L and Delvalle specialize in hazardous area and ATEX-certified terminal boxes, which are typically higher-priced due to safety certifications and custom designs.

Summary

For budgeting purposes, expect to pay $100–$300 for standard residential or small commercial boxes, and $500–$1,500 or more for industrial-grade, stainless steel, or customized distribution boxes. Prices vary based on material, size, protection rating, and additional features, so contacting suppliers directly for quotes is recommended to get precise pricing for your specific requirements.
