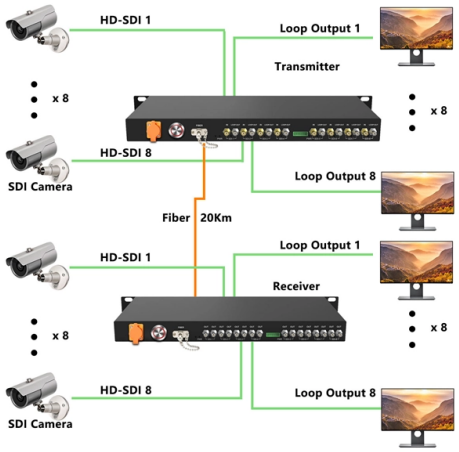
Thickness of Qatar Tray Cable Trays



Overview

Cable Trays are available in both solid and perforated designs. Our perforated trays are suitable for applications where sufficient passage of air is required to cool supported cables.

Key Takeaways

Cable tray thickness in Qatar ranges from 1. 0 mm for light duty to 2. 0 mm for very heavy duty applications.

Standard Thickness by Duty LevelIn Qatar, cable trays are typically classified by duty level, with corresponding standard thicknesses as follows: Light Duty (LCT – 100): 1. 0 mm thickness, suitable for smaller cable loads and shorter spans, with side heights of 50 mm and widths from 50 mm up to 1000 mm. Medium Duty (MCT – 120): 1.

2 mm thickness, designed for moderate cable loads, side heights of 50, 75, and 100 mm, and widths from 50 mm to 1000 mm. Heavy Duty (HCT – 150): 1. 5 mm thickness, for larger cable loads, side heights of 50, 75, and 100 mm, and widths from 50 mm to 1000 mm.

Very Heavy Duty (VCT – 200): 2. 0 mm thickness, for maximum load-bearing requirements, side heights of 50, 75, and 100 mm, and widths from 50 mm to 1000 mm.

Materials and Finishes

Cable trays in Qatar are fabricated from pre-galvanized steel, hot-dip galvanized steel, stainless steel, and aluminum, depending on environmental conditions and corrosion resistance requirements. The choice of material can influence the tray's durability, weight, and suitability for indoor, outdoor, or industrial applications.

Additional Considerations

Tray Lengths: Standard straight sections are typically 2440 mm or 3000 mm. Side Heights: Vary from 50 mm to 100 mm depending on duty and cable volume. Width Ranges: From 50 mm up to 1000 mm, accommodating different cable capacities.

Compliance: Many trays conform to NEMA standards and are tested for corrosion resistance and mechanical strength. These specifications ensure that cable trays in Qatar meet both structural and electrical safety requirements, while providing flexibility for various industrial, commercial, and high-rise building applications.
