Types of Romanian Cable Trays

Overview

Cable Tray Types and Sizes Types of Cable Trays and Sizes Explore various cable tray types and sizes for electrical installations. Learn about ladder, perf.

Key Takeaways

Romania offers a wide range of cable trays, including metal, perforated, wire mesh, and X-Tray systems, supplied by multiple manufacturers and distributors across the country.

Types of Cable Trays in Romania

Metal Cable Trays: Made from galvanized steel, stainless steel, or aluminum, these trays are suitable for low and medium voltage electrical installations. They come in standard lengths of 3000 mm, widths from 50 to 600 mm, and heights between 35 and 100 mm, with perforations and embossing for ventilation and drainage ( ). Perforated Cable Trays: Designed to enhance airflow and prevent overheating, these trays are ideal for industrial and commercial applications ( ).

Wire Mesh Cable Trays: Constructed from sturdy metal wires woven or welded together, offering durability, ventilation, and easy customization for various industrial sectors ( ).

X-

Tray Systems: Integrated with machine protection systems like X-Guard, these trays allow organized routing of insulated electrical cables for energy, control, and communication applications ( ).
