UAE Mesh Cable Tray Supplier

Overview

Power Solution is one of the leading wire mesh manufacturers in the UAE, offering durable wire mesh and wire mesh cable tray solutions for all industrial needs.

Key Takeaways

Top UAE wire mesh cable tray suppliers include Metar, West Port Middle East, and Ruwais Steel, all offering high-quality, durable, and flexible cable management solutions suitable for commercial, industrial, and data infrastructure projects.

Leading Suppliers

Metar is a prominent manufacturer and supplier in Dubai, UAE, specializing in high-quality wire mesh cable trays designed for fast installation, excellent ventilation, and long-term cable protection. Their trays are ideal for commercial buildings, industrial facilities, and data centers, offering corrosion-resistant finishes and robust support for heavy cable loads. West Port Middle East provides versatile wire mesh and basket trays suitable for IT, industrial, commercial, and hygienic applications.

Their trays feature lightweight construction, 360-degree ventilation, and tool-free adjustability, making them ideal for dynamic environments like server rooms, healthcare facilities, and F&B production areas. They also offer reinforced trays for heavier loads and a full range of accessories for secure installation. Ruwais Steel is another trusted supplier offering steel basket trays for flexible and efficient cable routing in commercial and industrial installations.

Key Considerations for UAE Projects

When selecting a wholesaler, consider: Climate resilience: UAE projects require trays that withstand high heat, humidity, and dust. Powder-coated or corrosion-resistant finishes are essential. Compliance: Ensure suppliers meet local standards and approvals from authorities like DEWA, SEWA, and ADDC.

Flexibility and scalability: Wire mesh trays should allow easy reconfiguration, cutting, and shaping on-site for evolving project needs. Project type: Choose trays based on load requirements, cable types, and installation environment (e.g., industrial plants, data centers, or coastal projects),.
