Vanuatu Micro Module Manufacturer

Overview

Buyers can compare multiple Vanuatu-based suppliers, check their capabilities, and shortlist the best options with confidence for domestic or international sourcing.

Key Takeaways

Port Vila hosts local manufacturers of smart energy storage modules, with NGEF-approved vendors and specialized Port Vila-based companies providing modular, climate-adapted solutions.

Local Manufacturers and Approved Vendors

The National Green Energy Fund (NGEF) in Vanuatu maintains a catalogue of approved solar home systems and microgrid products. The approved vendors for solar and microgrid solutions include Energy4All, eTech Vanuatu Limited, and Power and Communications Solutions (PCS), all of which can supply equipment suitable for Vanuatu's tropical climate and renewable energy goals. These vendors are eligible for NGEF financing, which can include loans, grants, or risk facilities for households, SMEs, and public institutions.

Port Vila-

Based Energy Storage Module Manufacturer

A specialized Port Vila energy storage module manufacturer provides modular lithium-ion units designed for island conditions, including saltwater corrosion resistance, hurricane-proof designs, and tropical climate adaptations. Their systems are smart-grid compatible, allowing excess power to be exported to neighbors, and feature modular stacking for scalable capacity. These modules maintain 80% capacity after 4,000 cycles, ensuring long-term reliability in Vanuatu's environment.

The company also offers co-design services to tailor solutions for eco-resorts, industrial facilities, and community microgrids.

International Suppliers for Smart Microgrids

Several international companies supply smart microgrid and energy storage solutions that can be deployed in Vanuatu, including: Zonergy Corporation – specializes in integrated smart microgrid solutions.

E

T Solar – provides smart solar energy systems with integrated microinverters and AC modules.

TBE

A Xi'an Electric Technology Co., Ltd. – offers smart PV power generation and power quality management solutions. These suppliers can complement local manufacturing by providing high-tech modules and system integration expertise.

Community Microgrid Projects

Vanuatu has also implemented community-run microgrids, such as the Wintua-Lorlow project on Malekula Island, where local energy cooperatives manage and maintain the system in partnership with local energy service companies. These projects demonstrate the practical deployment of smart micro-modules in rural and remote areas.

Summary

For smart micro-module solutions in Vanuatu, you can engage: Local NGEF-approved vendors: Energy4All, eTech Vanuatu Limited, PCSPort Vila-based energy storage manufacturer: modular, tropical-adapted lithium-ion systemsInternational smart microgrid suppliers: Zonergy, ET Solar, TBEA Xi'an Electric Technology These options provide a combination of local support, climate-adapted design, and advanced smart-grid capabilities suitable for residential, commercial, and community microgrid applications in Vanuatu.
