Vietnam Hot-Dip Galvanized Cable Tray Price Quote

Overview

Minh Quan Vina Cable Trays & Electrical Cabinets - Minh Quan Vina Manufacturing Commercial and Services Company Limited is a supplier of hot dip galvanized cable tray.

Key Takeaways

High-quality hot-dip galvanized cable trays from Vietnam typically range from $15 to $50 per meter, depending on size, thickness, and customization options.

Pricing Overview

Vietnam is emerging as a competitive manufacturing hub for hot-dip galvanized (HDG) cable trays, offering cost advantages without compromising quality, especially for industrial and commercial projects. Prices generally vary based on: Tray type: Ladder, perforated, ventilated, wire mesh, or solid-bottom trays. Dimensions: Widths from 50mm to 1000mm and depths from 25mm to 200mm affect material usage and cost.

Steel thickness: Thicker steel provides higher load capacity and durability, increasing price. Galvanization quality: A thicker zinc coating enhances corrosion resistance, particularly for outdoor or harsh environments. Customization: OEM designs, special lengths, or unique configurations can raise costs.

Market Context

The global HDG cable tray market is growing steadily, with Asia-Pacific, including Vietnam, seeing increased demand due to urbanization, industrial projects, and renewable energy infrastructure. Vietnam offers competitive pricing compared to China and India, while maintaining high-quality standards suitable for long-term durability in corrosive or heavy-duty environments.

Supplier Considerations

When sourcing from Vietnam: MOQ and lead time: Minimum order quantities and production schedules can affect unit price. Certifications: Ensure compliance with international standards such as BS EN 10346: 2009 for galvanized steel. Delivery and logistics: Shipping costs and regional trade agreements may influence total procurement cost.

After-sales support: Some suppliers offer installation guidance, zinc-rich touch-up paint for cut edges, and long-term service support.

Practical Tip

For high-quality HDG trays, expect $15–$50 per meter for standard sizes, with larger or custom trays potentially exceeding this range. Comparing multiple Vietnamese suppliers and requesting detailed quotations, including galvanization thickness and steel grade, is recommended to secure the best value.
