UNITRUN

K: Offers stainless steel cable trays suitable for industrial and commercial installations, emphasizing compliance with international standards.

M

P Husky: A leading US manufacturer with over 55 years of experience, producing stainless steel cable trays in multiple types, including wire mesh, perforated, and solid-bottom trays, meeting NEMA, UL, CTI, and CSA standards.

Material and Application Notes

Stainless steel cable trays are typically available in 304, 304L, 316, and 316L grades, providing excellent corrosion resistance and long-term durability. They are suitable for harsh environments, including chemical plants, marine applications, and outdoor installations. Options include wire mesh, perforated, and solid-bottom trays, catering to different cable types and load requirements.

Additional Considerations

When selecting a brand, consider: Compliance with standards (NEMA, UL, CSA)Load capacity and wall profile heightEase of installation and modularityAvailability of accessories and support These brands are widely recognized for their reliability, quality, and global availability, making them suitable choices for professional cable management projects.
