What are some manufacturers of pigtail fiber

Overview

Need reliable fiber optic pigtail suppliers? Discover certified manufacturers offering SC/APC, LC/UPC connectors and custom lengths. Compare prices and order samples today!

Key Takeaways

Fiber optic pigtails are manufactured by companies such as Belden, Leviton, Foss Fibre Optics, Fibertronics, Amerifiber, Century Fiber Optics, and OCC.

Leading Manufacturers

Belden produces traditional fusion splice-on connectors and mass fusion pigtails, offering factory-polished performance with field-termination convenience for harsh environments. Their pigtails are available in single and multi-fiber configurations, including ribbonized options for mass fusion splicing. Leviton offers fiber optic pigtail kits suitable for mechanical or fusion splicing applications.

They provide both multimode and single-mode fibers with SC, ST, or LC connectors, and options for premium low insertion loss or economy models. Foss Fibre Optics manufactures pre-connected fiber cables with all common connector types, providing both standard and custom lengths. They focus on high-quality components and rigorous testing to ensure long-term reliability.

Fibertronics, Inc. supplies a range of competitively priced pigtails, including 9/125 µm single-mode, 62. 5/125 multimode, and OM3, OM4, and OM5 variants with LC, SC, ST, and FC connectors. Amerifiber offers a wide selection of fiber optic products, including pigtails, patch panels, enclosures, jumpers, and adapters, designed for telecommunications and networking applications.

Century Fiber Optics provides pigtail assemblies in 6- and 12-fiber arrays, color-coded, cut to 3 meters, and factory-tested with included test data sheets.

OC

C manufactures fiber optic pigtail assemblies in 6- or 12-bundle configurations, available pre-terminated or custom-configured for field installations.

Applications

Fiber optic pigtails are short lengths of optical fiber with a factory-terminated connector on one end and bare fiber on the other, designed for fusion or mechanical splicing into larger fiber networks. They are commonly used in optical distribution frames (ODFs), terminal boxes, patch panels, FTTH deployments, and enterprise networks. These manufacturers provide a variety of options to meet different network requirements, including single-mode or multimode fibers, various connector types, and custom lengths, ensuring compatibility and high performance in professional fiber optic installations.

Understanding the top fiber optic pigtail manufacturers can make all the difference. By comparing these factories, you''ll discover the best quality and value for your needs.

List of Fiber Optic Pigtail Companies

Shenzhen Hengtongda Communication Equipment Co., Ltd is a professional manufacturer and supplier of high-efficiency fiber optical connection accessories installation products.

Fiber Optic Pigtail Factory | Standard Types in Bulk | OTRANS

As a professional fiber optic pigtail manufacturer with 20 years of experience, OTRANS specializes in bulk production of standard pigtail solutions. Our 40,000□ factory produces high-quality single mode

Pigtails and Patch cords | Foss Fibre Optics

Since 1984 we have built fibre optical infrastructure and provided fibre optical solutions. Over three decades we have experienced a yearly growth of more than 10 % in our footprint now found in Trunk

Global Fiber Pigtails Market 2025 by Manufacturers, Regions, Type

Chapter 2, to profile the top manufacturers of Fiber Pigtails, with price, sales quantity, revenue, and global market share of Fiber Pigtails from 2020 to 2025.

Fiber Pigtails

CommScope engineers and manufactures a complete line of high quality fiber pigtails

Everything you need to know about fiber optic termination

With two multimode fibers in usage today and two others which have been used occasionally in the past and several types of singlemode fiber in use, it is

Fiber Optic Jumpers, Pigtails & Drop Cables | Multilink

We provide a variety of fiber optic jumpers, pigtails, multi-channel assemblies and drop cable assemblies to help providers expand their networks

The Ultimate Guide to Fiber Pigtail

A Fiber Pigtail is a single, short, usually tight-buffered, optical fiber that has an optical connector pre-installed on one end and a length of exposed

Guide to Fiber Optic Pigtails: Introduction, Applications

Fiber optic pigtails are a cornerstone in the architecture of modern communication systems. Their role, although often understated, is critical in
