What are the cable tray models in Slovakia

Overview

Our cable tray catalogue covers all cable management and protection needs, from domestic installations to large-scale industrial projects.

Key Takeaways

Cable tray systems in Slovakia are widely available in galvanized and weather-resistant materials, with comprehensive installation services and accessories provided by local manufacturers and suppliers.

Types and Materials

In Slovakia, cable trays are commonly made from galvanized steel, which provides excellent corrosion resistance and durability, suitable for both industrial and commercial installations. Outdoor cable trays are often constructed from weather-resistant materials to withstand harsh environmental conditions. Standard types include straight trays, 45° and 90° bends, T-joints, reducers, and cross fittings, all designed to maintain load-bearing capacity and protect cable insulation.

Manufacturers and Suppliers

Several companies provide cable trays and related accessories in Slovakia: Strader offers a variety of covers and fittings for cable trays, including T-joints, reducers, and cross fittings.

Group

Sumi supplies indoor and outdoor cable trays, along with accessories such as supports, connectors, and clips, ensuring secure and organized installations.

GAO

L Energy Slovakia provides installation services, including laying cable trays, pulling cables, and structured cabling for residential, commercial, and industrial projects. Cable House is recognized for manufacturing and supplying cable trays and related products, offering customized solutions and high-durability systems.

Installation Practices

Cable tray installation in Slovakia follows strict quality and safety standards. Systems are designed to avoid burrs or sharp edges that could damage cable insulation, and fittings must match the load capacity of straight sections. Installation typically includes: Mounting trays along planned routes according to technical drawingsUsing supports, brackets, and connectors to secure traysPulling and organizing cables within the traysEnsuring compliance with local electrical codes and safety regulationsAccessories and CustomizationCable tray systems are complemented by a wide range of accessories, including: Covers for bends and T-jointsReducers and cross fittingsClips, brackets, and supports for secure mountingCustom-sized trays for specific project requirements SummarySlovakia offers a robust market for cable tray construction, combining high-quality materials, diverse product types, and professional installation services.

Whether for industrial, commercial, or residential projects, local suppliers provide durable, corrosion-resistant trays with full accessory support, ensuring safe and organized cable management.
