What kind of bracket should be used for a 1200 cable tray

Overview

Cable Tray Support Brackets: Used to support the cable tray at various points during installation. Plus, they're easy to install and adjust if necessary. For example, if you're installing a ladder-style cable tray in an industrial facility, galvanized steel single-arm brackets often provide the ideal balance. Cut, bend, and connect the wire mesh trays to route cable and hose in configurations such as curves, slopes, and tees. These are the most corrosion-resistant tray systems we offer for. TechLine Mfg. Support Locations - Cable Tray (Reference: NEMA VE-2 Current Issue) Contact us today for your custom or standard sized support bracket needs. They are ideal when you have limited floor space and need a more out-of-the-way way to support your cable tray. These cable tray accessories include components such as plastic nuts and bolts, swift clips, wire baskets, couplers, tees, crosses, and brackets. They are used in conjunction with cable trays to securely support cables, facilitate directional changes in cable runs, and aid cable channelling around.
