What to use to tie pigtails

Overview

Before tying your pigtails, make sure to use a good quality hair product, such as a strong-hold gel or mousse, to provide support.

Key Takeaways

Tying pigtails is simple: part your hair evenly, secure each side with a hair tie, and adjust for symmetry and style.

Step-by-

Step Guide1. Preparation Start with clean, dry, or slightly damp hair. Brush thoroughly to remove tangles and apply a leave-in conditioner if needed for smoothness and manageability.

2. Create the Parting Use a comb to part your hair down the middle for classic pigtails, or slightly off-center for a modern twist. Ensure the part is straight and even.

3. Secure One Side Clip or tie one half of your hair to keep it out of the way while you work on the other side. 4.

Form the First Pigtail Brush the loose section, gather it at your desired height (high, mid, or low), and secure it with a hair tie. Smooth any flyaways with gel or hairspray. 5.

Form the Second Pigtail Release the clipped section, brush it, and gather it at the same height as the first pigtail. Secure with a hair tie and adjust for symmetry. 6.

Optional Styling Variations

Braided Pigtails: Create three-strand, French, Dutch, or fishtail braids for texture and elegance.

Curly or Half-

Braided Pigtails: Curl your hair first or braid only the top half for a trendy look. Bubble Pigtails or Space Buns: Section the hair into multiple elastics or twist into buns for playful styles. 7.

Finishing Touches Check that both pigtails are even. Add ribbons, bows, or hair accessories for personalization. Use hairspray to hold the style in place.

Pigtails are versatile and can be adapted for casual, sporty, or festive occasions, making them a quick and stylish option for any day.
