A manufactures medium- and heavy-duty cable trays in electro-galvanized, pre-galvanized, and hot-dip galvanized finishes, suitable for indoor and outdoor industrial environments.

Siltec US

A offers heavy-duty wire mesh and basket cable trays with reinforced construction for high load capacity, available in stainless steel and hot-dip galvanized finishes.

Types of Cable Trays Available

Wire Mesh Trays: Flexible, lightweight, and ideal for data and fiber optic cables. Ladder Trays: Strong, suitable for heavy power cables and industrial applications.

Solid-

Bottom Trays: Provide full support and protection for sensitive cables. Basket Trays: Open design for airflow and easy cable access.

Heavy-

Duty Trays: Reinforced for high load capacity and large cable bundles.

Tips for Purchasing

Determine the type and size of cable tray needed based on cable load and environment. Consider material and finish (galvanized steel, stainless steel, aluminum) for durability and corrosion resistance. Check for accessories and fittings to ensure proper installation and support.
