Where can I buy European-style cable trays

Overview

Cable trays Buy at B2B prices 0% VAT for EU business customers. Subscribe to the newsletter to receive the latest discount codes.

Key Takeaways

Cable trays in Europe can be sourced from specialized manufacturers, distributors, and online suppliers offering a wide range of materials, types, and standards-compliant systems.

Leading Manufacturers and Suppliers

Eurostrut: Offers industrial and marine cable trays, including distribution trays, cable routes, and NATO-type models. Customers can request quotes directly via their webshop for tailored solutions (Eurostrut). Niedax Group (Germany): Provides over 50,000 products including cable trays, ladders, and support systems.

Known for durable, standards-compliant solutions for industrial, commercial, and infrastructure projects (Apex Tray). Spina Group (Italy): Specializes in ladder and perforated cable trays, offering both standard and custom systems suitable for heavy-duty applications (Apex Tray). Trayco (Europe-wide): Offers cable trays with integrated ends, designed for high capacity, lightweight, and easy assembly, suitable for large-scale installations (Trayco).

Ekabel24 (Germany): Provides a comprehensive range of cable trays and ladders in hot-dip galvanized steel, stainless steel, and halogen-free plastic, compliant with DIN EN 61537 and international standards (Ekabel24).

R

S Online (UK): Stocks a wide variety of cable trays including ladder, wire mesh, basket, single rail, and PVC options. Offers fast delivery, technical support, and eco-friendly products (RS Online).

Types of Cable Trays Available

Ladder Cable Trays: Ideal for heavy power cables, featuring horizontal rungs for support. Perforated Cable Trays: Provide ventilation and flexibility for medium loads.

Wire Mesh/

Basket Trays: Lightweight, easy to install, and suitable for data and control cables. Single Rail Trays: Compact solutions for specific routing needs. Material Options: Stainless steel (304/316), electro-galvanized steel, hot-dip galvanized steel, and PVC for corrosion resistance and fire safety.

Considerations for Selection

Compliance: Ensure products meet European standards (e.g., DIN EN 61537) for safety and durability. Environment: Choose materials suitable for indoor, outdoor, or corrosive environments. Load Capacity: Select trays based on cable weight and installation scale.

Customization: Many manufacturers offer tailored solutions for complex projects. By exploring these suppliers and manufacturers, you can find high-quality, standards-compliant cable trays suitable for industrial, commercial, or infrastructure projects across Europe.
