Where can I buy trough-type horizontal cable trays

Overview

Cablofil steel trough trays provide the strength and security required when then need to limit cable access is of primary importance.

Key Takeaways

Trough-type horizontal cable trays are manufactured by companies in the USA, UK, and India, among other countries.

Key Manufacturers and Locations

Atkore International / Cope (USA): Cope, part of Atkore, produces a wide range of cable tray systems, including trough and channel types, in the United States. Their products meet NEMA standards and are UL certified, with custom-made options available for industrial and commercial applications. Armorduct Systems Ltd (UK): This UK-based manufacturer produces steel cable management systems, including cable trays and trough-type solutions.

They offer both standard and bespoke designs, manufactured in-house. Indian Manufacturers: Companies in India, particularly in cities like Pune and Mumbai, manufacture trough-type cable trays for industrial and commercial installations. These manufacturers often supply both domestic and international markets.

Global B2

B Platforms: Online marketplaces like Tradewheel and ThomasNet list manufacturers worldwide, including suppliers of roll-formed, galvanized, and custom trough-type cable trays. These platforms allow buyers to source trays from countries such as the USA, Germany, China, and India. Applications and ConsiderationsTrough-type cable trays are partially enclosed, providing better cable protection than ladder trays while maintaining ventilation.

They are commonly used in power distribution systems and industrial indoor installations. When selecting a manufacturer, consider material quality, compliance with NEMA or UL standards, and customization options to ensure suitability for your project. In summary, trough-type horizontal cable trays are manufactured by established companies in the USA, UK, and India, with additional suppliers available globally through B2B marketplaces, offering both standard and custom solutions for industrial, commercial, and infrastructure projects.
