Which manufacturer produces the fiber optic cables for broadcasting

Overview

Fiber Optic Manufacturers Checklist | PHILISUNUse this checklist to compare fiber optic cable manufacturers for quality control, custom assemblies, testing.

Key Takeaways

Several manufacturers specialize in fiber optic cables for broadcast applications, providing solutions tailored for high-definition signal transmission and harsh environments.

Key Manufacturers

Camplex: Camplex offers a wide range of fiber optic cable solutions and accessories specifically designed for the broadcast, pro-audio, and pro-AV markets. Their products include certified fiber optic solutions that enhance broadcast performance and are suitable for UHD 4K and 8K signals. Huihongfiber: Huihongfiber specializes in rugged fiber optic broadcast products designed for real-time transmission of high-definition signals.

Their cables are optimized for harsh environments, making them ideal for outdoor live broadcasts. They provide deployable fiber optic cables that are lightweight, durable, and capable of withstanding tough conditions. Optical Cable Corporation (OCC): OCC creates broadcast networks using fiber optic technology, focusing on high-bandwidth and low-signal-loss data streams.

Their products include SMPTE cables and pre-terminated assemblies, designed for strength and reliability in demanding environments like stadiums and arenas. Amphenol Fiber Systems International (AFSI): AFSI provides a complete suite of fiber optic solutions for the broadcast market, including harsh environment connectors and cable assemblies. Their products have been used in major events like the Super Bowl and World Cup, ensuring reliability and performance.

Incab: Incab supplies fiber optic cables for various industries, including broadcasting. They focus on intelligent and innovative cable solutions, offering support services throughout the design and installation process. These manufacturers are recognized for their commitment to quality and innovation in the fiber optic cable industry, making them suitable partners for broadcast applications.
